

Reflections & Inspirations

Jesuit Education Forum 2015

Heritage • Culture • Leadership

Wahyanites of different generations have been inspired by the Jesuit Education that they have received. **But what is it about the Jesuit approach that is so inspiring?** To celebrate the Anniversaries of the two Wah Yans, the first ever **Jesuit Education Forum** in Hong Kong will be organized. Participants will be able to understand more about the Society of Jesus and its approach to education through different angles and appreciate the ever increasing relevance of Jesuit Education in the 21st Century. With three international heavyweights for the Keynotes and sharing by prominent local leaders and academics in breakout sessions, the Forum promises to be as inspiring as the education Wahyanites have received.
