Seems Ho Sir was in a car accident!!! Has any of you visited Ho Sir since? Is he going to be OK? Is Ho Si-Moe looking after him?

Anything any one of us can do? Further news would be much appreciated.

Please tell him he will be in all our prayers for a speedy recovery!!

I've just finished talking to Ho Sir.

He's feeling very painful all over. He has stopped taking the painkiller drug because there are side effects - nausea, constipation etc.

He hasn't seen any other doctor (e.g., WYK alumni) except those in the hospital.

Peter Wong wrote:

Have sent him email wishing him speedy recovery and offer help for transportation and purchase help. Will keep all for more news.

It was sad to know that Mr. Ho had a car accident. Sometimes using hot packs to relief local pain is more effective than pain killers.

Hope Mr Ho will recover soon.

I still remember vividly the lessons and experiments that Mr. Ho taught us on density in Form 3. It was 2002 that I got the chance to meet him again during the dinner gathering at New World Restaurant in Toronto.

My sincere wish to Mr. Ho for a speedy recovery!

This reminds me of a car accident that involved me, Chan Yiu Man and Andrew MAN Chung Keung back in June 2008 when our coach rolled down a 25 meter pretty steep slope and ended in a semi-dried up small tributary of the Yellow River in 山西 after we visited the famous 壺口瀑布. Luckily we all escaped a more fatal accident and incurred only some less damaging injuries.

The moral of my recollection is, we all should be thankful that the downs in our life, although quite inevitable, are not so bad after all. Things could be much worse, but yet we will get over them.

Ho Sir, please do cheer up and enjoy your rest. All your students are behind you.

Wish you a very speed recovery.

We're all glad that you weren't travelling at higher speeds at the time. Please be more careful with driving in future.

Wishing you a speedy recovery. Please take deep breaths to expand your lungs despite pain from the rib fractures.

(From Hin-Shing: Ho Sir please take note. The above is the advice from a physician.)

Thanks for the reminder, HS, and the attached photo 15 yrs ago (wow!). Many flashes crossed my mind including Mr Ho the first day in our Arithmetics class. I believe at that time he and Mr Lawrence Tam just came to WYK after coming out of Northcote Teachers' College.

I was shocked like everyone else when I received the news of Mr Ho's accident, but feel much better that he came out okay, Gut Yan Teen Sheung!
