

## BIOGRAPHY

Our father, David Shiu Fai-wing, was born in Chew Chow, Guangdong Province on the 13th of March, 1945. He grew up in Hong Kong and attended Kowloon Wah Yan College. He then studied in the United States and completed further education at Columbia University New York with a degree in Economics and Business Administration. Upon return to Hong Kong, he worked for The Swire Group but later moved back to work in the family business Kam Hing Industrial Co. Ltd. after his father passed away.

He was intelligent and a good scholar. He was athletic and excelled in playing football and was in the School Team at Wah Yan College. He was well liked and fondly remembered by his school mates as evidenced by the emails and messages we received by his old school mates and friends. His generosity and cheerful personality touched many.

My sister, Cynthia and I remember him to be a loving and caring father. We will miss him dearly but take comfort that he passed away peacefully in his sleep in Neustadt, Germany. He will always remain in our hearts.

In fond memories of our father,  
Derek and Cynthia.
